**International Scientific Conference
«Monitoring of Geological Processes and
Ecological Condition of the Environment»
13-16 November 2018, Kyiv, Ukraine**

FIRST ANNOUNCEMENT

ESI “Institute of Geology” of Taras Shevchenko National University of Kyiv with the support of the European Association of Geoscientists and Engineers (EAGE) organizes a conference dedicated to monitoring of natural hazards, which include both geological hazards, and study the geological factors that can lead to environmental disasters. The conference will include new approaches of using geological and geophysical methods for natural and man-made processes assessment, as well as ecological analysis of territories.

Objective of this event is to facilitate exchange of valuable scientific experience, integration of different sectors of research, and improvement of interagency and international cooperation.

During the conference a tour to the Chernobyl zone will be organized.
